	<input type="checkbox"/> Dual Eligible Special Needs Plan (D-SNP)	

DESCRIPTION:

The Patient Protection and Affordable Care Act (PPACA) imposes a number of insurance reforms and mandates, including a requirement to cover certain *preventive items and services* at 100 percent and ensure these items and services are not subject to deductibles or other cost-sharing limitations.

The following list of preventive medications should be used as a guide. It cannot be considered a comprehensive listing of medications available or covered without cost sharing. Coverage of any of the listed medications (including over-the-counter (OTC) medications) requires a prescription from a licensed healthcare provider. Not all medications are covered on all formularies under these categories; medications not covered would include brand-named drugs that have generic equivalents. Some categories have age limits. Any drugs that are covered through the formulary exception process will be covered without cost sharing. Any multisource brand drugs on the formulary (other than contraceptives and smoking cessation products which are already covered with no cost share) will be covered at zero cost share if the prescriber submits a request with clinical rationale stating that the generic is not appropriate for the member.

This list is subject to change as ACA guidelines are updated or modified or new drugs are available.

COVERAGE AND CRITERIA:

Women's Contraceptives - Covered products include oral contraceptives (including emergency contraception), topical contraception (patch), vaginal contraception (vaginal ring), injectable contraception, OTC contraceptive methods (female condoms, male condoms, spermicides, sponge) and contraceptive devices (diaphragms, cervical cap).

- Coverage of a non-formulary contraceptive without cost share will be granted in all instances where a prescriber explains that a medical need exists.

/Folic Acid Products - folic acid tablet 0.4mg and 0.8mg for ages 11 and older

Breast Cancer Prevention – anastrozole, exemestane, tamoxifen, raloxifene, Soltamox

Aspirin Products- aspirin 81mg for ages less than 60 years

Pharmacy Management Drug Policy

Patient Protection and Affordable Care Act - Preventive Items and Services

Fluoride Products - fluoride chewable tablet 0.25 mg, 0.5 mg and 1mg, fluoride drops 0.125mg, 0.25mg and 0.5mg. Multivitamin w/ fluoride chewable 0.25mg and 0.5mg, multivitamin w/ fluoride drops 0.25mg and 0.5mg suspension – for ages up to and including age 16.

Bowel preps (limit of 2 prescriptions per year) – bisacodyl, magnesium citrate, milk of magnesia, PEG 3350-electrolyte covered for those between the ages of 45-75.

Statins – Low to moderate dose such as atorvastatin 10-20mg, fluvastatin IR and XL 20-80mg, lovastatin 10-40mg, pravastatin 10-80mg, simvastatin 5-40mg, rosuvastatin 5-10mg covered for those between the ages of 40-75

Smoking Cessation Products - Prescription and OTC products will be covered for adults 18 years of age and older. The following products are covered: patches, gums, nasal sprays, inhalers, lozenges, Chantix and bupropion sr (generic for Zyban)

Immunizations - Covered immunizations include those that are routine vaccines recommended by the Advisory Committee on Immunization Practices of the Centers for Disease Control and Prevention and that meet the US Food and Drug Administration approved indications for age and/ or gender limitations. Coverage of vaccines at an in-network retail pharmacy is limited to vaccines that a New York State licensed pharmacist is legally able to administer.

Medications for pre-exposure prophylaxis (PREP) for HIV – emtricitabine/tenofovir disoproxil fumarate (this applies only to the 200/300mg strength which has the indication for PREP) and Descovy.
